# WHO AM I?

I am Maurane Do, a digital illustrator from Lyon, passionate about stories that inspire. Lulled by dreamlike tales from all around the globe, my fascination with drawing and images took root as a child.

Professional training in Project Management and Communication in 2018 gave me the opportunity to experiment with digital tools and reconnect with my passion for images. In 2020, my first steps in illustration opened up new perspectives. The following year marked my debut as an illustrator, responding to customer projects as well as opening my online store.

In 2023, I took the plunge and became a full-time freelance illustrator! My dream is to see my illustrations reach a wide audience through a variety of media, such as book covers, a range of teas or cookies to share, a puzzle to assemble, or even textiles.

I hope to help each one of us explore magical universes and reconnect with our own imaginations.

# MY ARTWORK

Birth announcement - 2022

Personalized illustration celebrating a growing family. Set in a world of fairy tales, the parents wanted to bring together in one image many symbols referring to their story. The second visual, featuring the mice celebrating, had to wait until after the birth of the little girl, and be printed within a month to keep family and friends informed in good time.

## Flyer and poster Berthel - 2022

Berthel is a creative boutique based in Strasbourg, France, with the particularity of revitalizing second-hand objects and materials. The illustration aims to capture the magic of these unusual objects. Since the initial request was for a flyer, I suggested creating the reverse side with the back of the wardrobe, leaving room for the address information. The visual was produced on a file large enough to anticipate other uses, such as an A3 poster.

# MY DAYDREAMS

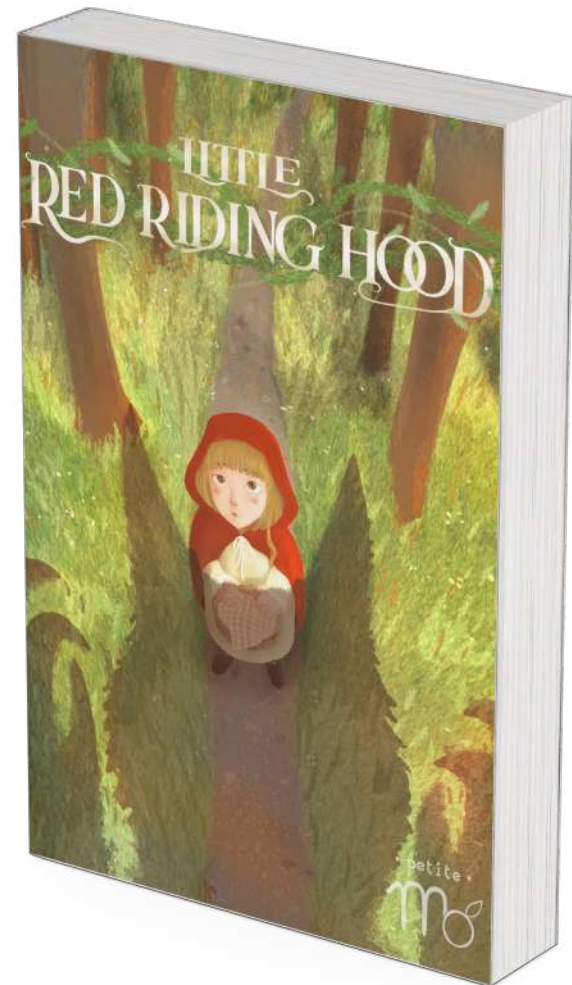

Cup Of Tea - 2023 / The Knight - 2022

### The Little Red Riding Hood Coverbook - 2022

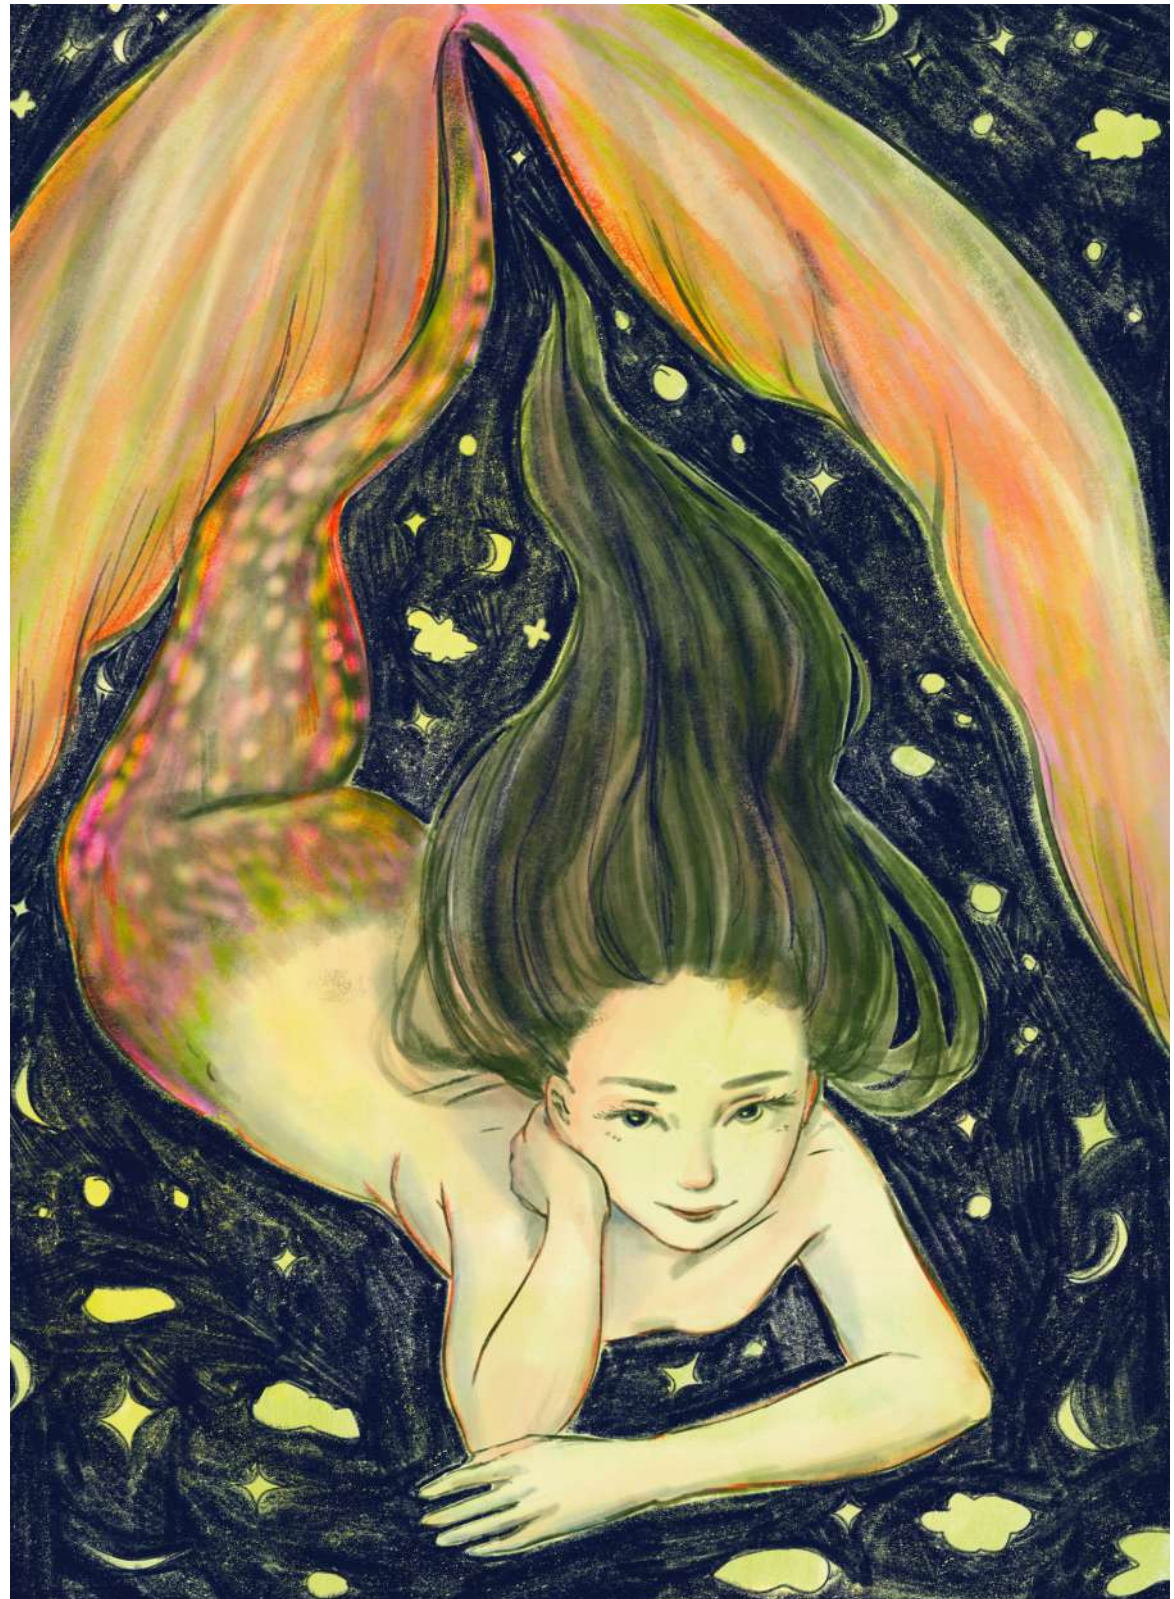

Personal interpretation of the famous tale, imagining its cover, as part of a creative challenge on social networks. Little Riding Hood's expression is intended to be fearless, both to represent childlike curiosity and to give free rein to the story's potential rewriting.
